

BENELLI BATHROOM BASINS

MODERN INGENUITY
Intuitive Design Selection July 2021

Sophy Pura

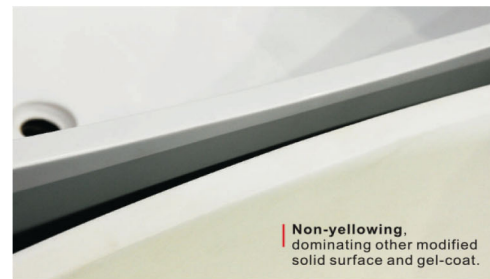

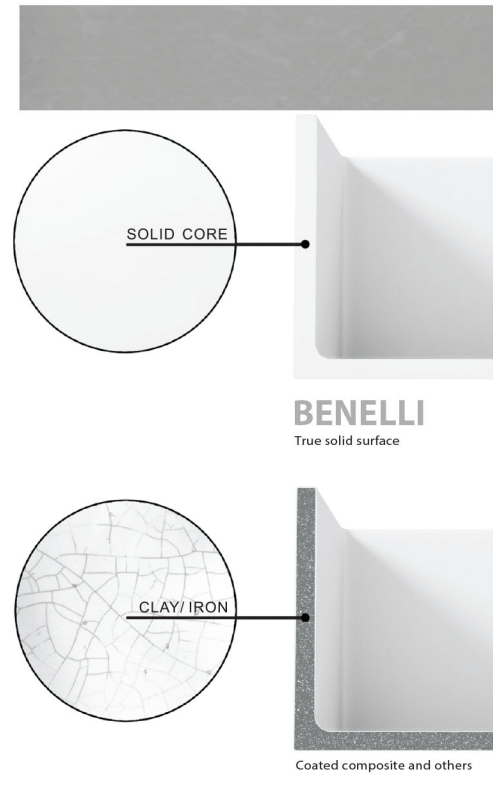

Benelli Global's Sophy Pura Bathroom Wash Basin is made from high quality Solid Surface material.

Solid Surface is a man made, non porous, low maintenance & hygienic material. It's designed to have the feel of silk, the quality and appeal of natural stone and the hygienic properties of stainless steel. It is easy to care for, incredibly stylish and offers endless design flexibility. It's no wonder this incredible substance is fast becoming the leader in commercial & residential design.

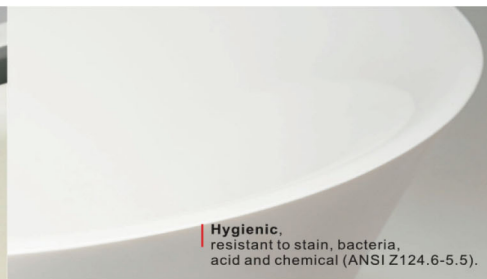

Mineral casting is a material mixture of natural stone powder resin. Its special properties, such as the high temperature stability, large design possibilities make mineral casting a high-quality and flexible material.

Benelli Pura products are made of natural stone powder and polyester resin. The great advantage over conventional material is the particularly large design possibility. By refining the surface with a gelcode layer, these sinks are equipped with a matt white exterior. The refined mineral casting is resistant and easy to care for.

*Non-porous, solid construction core resists fire, chemicals, germs and stains.

Non-yellowing.
dominating other modified solid surface and gel-coat.

Hygienic.
resistant to stain, bacteria, acid and chemical (ANSI Z124.6-5.5).

Solid hard
resistant to scratch and impact (ANSI Z124.6-5.6).

Heat resistant.
kitchen sink tested with boiling oil without breaking damage.

Fire resistant.
thanks to its ATH composition, TUV awarded Class One.

Renewable.
easy to maintain and repair to all new outlook.

Non-toxic.
with no toxic gases to release.

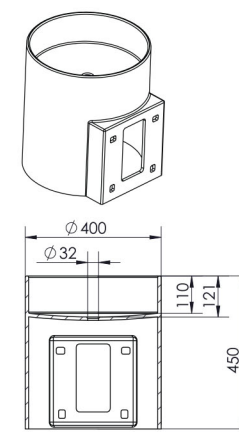

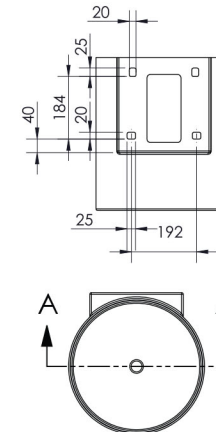

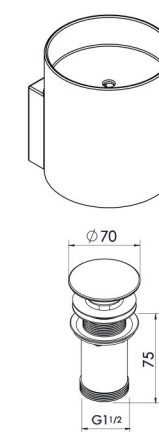

Elegant touch.
with matt or gloss finish available.

BEN-PUR-005MW	Solid Surface Matching Pop-Up Waste	\$ 85.00

Prices exclude GST (10% if applicable).

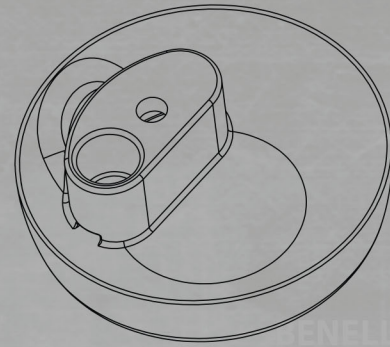

INTUITIVE DESIGN SELECTION 2021

Ceramic Art

Vitreous china is an enamel coating that is applied to ceramics, particularly porcelain, after they've been fired, though the name can also refer to the finished piece as a whole. The coating makes the porcelain tougher, denser, and shinier, and it is a common choice for things like toilets and sink basins.

Vitreous china goes a step further and is made by coating porcelain or ceramic with an enamel made from powdered glass, giving it a glossy look. This special coating makes it only marginally more durable than ceramic and porcelain.

COUNTER TOP
BEN-357A

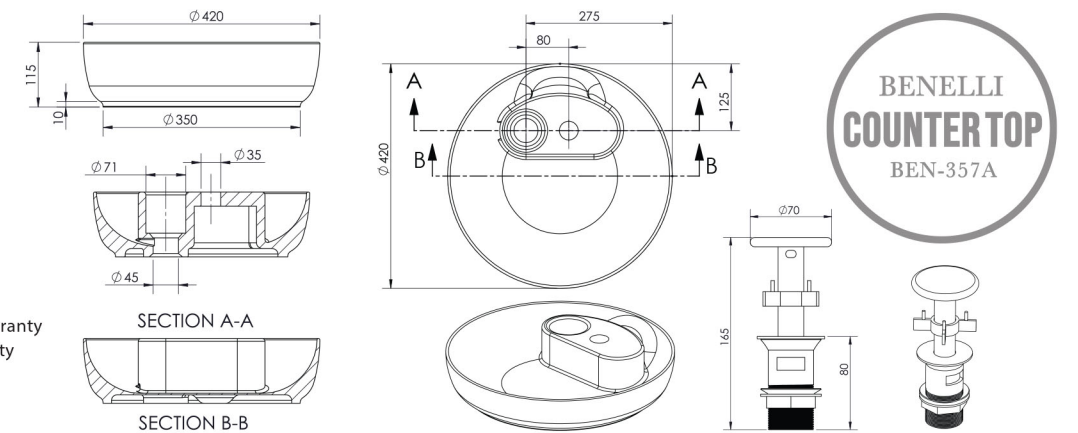

*Featured with Benelli Mixer : BEN-38119D. Mixer and Accessories not included.

Note: We always recommend the cabinet maker and stone provider has the actual basin with them to measure before making cabinetry or cutting stone.
Use of Epoxies on Benelli PURA Solid Surface basin will void manufacturer's warranty.
If installing stone over the sink, ensure stone and sink are supported independently of each other.

All installations should be carried out by a qualified tradesman in compliance with the national Plumbing & Drainage Code and any State or Local Authority Regulations, in accordance with AS/NZS 3500 series of standards and AS/NZA 6400.
